

Final Updates of IMCO2019

Program timetable

Please refer to the “Quick Guide of Program (Final version)” with pink cover, which already include the last-minute changes as many as possible.

Poster presentation

1. Poster number P-301 (Title: Development of optical fiber hydrophone technology) is changed to poster number P-312.
2. Poster number P-702 (Title: An optical MEMS microphone with diffraction grating structure), the author is changed from “Yuzhi Shi” to “**Shijin Xiao, Jia Zhao et al.**”
3. Poster number P-703 (Title: Effect of deposition mechanisms on the infrared photoluminescence of erbium-ytterbium silicate films under different sputtering methods) is removed.
4. Poster number P-703 is added with paper ID 25696, Title: An integrated opto-mechanics transducer, author: **Changpeng Li, Jia Zhao et al.**
5. Poster number P-313 is added with paper ID 25700, Title: A Graphene photonic crystal fiber capable of electro-optic modulation, authors: **Guangwei Fu, Ying Wang**
6. Poster number P-219 is added with paper ID 25777, Title: Ring-Assisted Multi-Mode Fiber for MIMO-Free Mode-Group Multiplexing Transmission, authors: **Shi Chen, Jian Wang**
7. Poster number P-314 is added with paper ID 26096, Title: Meta-lens for high-dimensional imaging and sensing, author: **Din Ping Tsai**

Sorry for the inconvenient. If you have any enquiry, feel free to contact our helpers.
